

January 11, 2005

### Introduction:

The internet has matured into an important business marketing channel offering a relatively inexpensive advertising and communications tool for reaching clients around the world. The significance of a business's web strategy will continue to grow as consumers recognize the quantity and flexibility of information available from vendors of interest. They already expect a minimum quantity of information to be available and easy to understand. Remember when facsimile machines seemed like an expensive luxury, then they became a necessary tool, and finally an inexpensive fixture in every office. The web is not only necessary, but clients are more likely to receive their first impression from this media than from all of your other advertising combined.

You want to offer graphic and layout design reflecting your company branding with the quality and professional appearance of your printed materials. Your information should be extensive and arranged in many combinations to provide quick answers to questions and to swiftly satisfy purchasing interest. Web services and support features can build customer loyalty and often lower costs by decreasing phone assistance time. Content can be more easily updated compared to printed literature, which also serves to keep the web site interesting, and attracts search engine scanners to rank your site higher in value.

### OxisResearch.com Web Traffic Summary:

OxisResearch.com attracted over 35,000 unique visitors for the year in 2004. December had 8752 visits, up from about 5000 in January of 2004. It is averaging 6% growth in visitors per month.

Potential customers are finding their way to oxisresearch.com and oxis.com by querying a search engine, by following the web address printed on your literature, by following the few distributor links available, or by clicking on a "favorite" listing they saved during a previous visit. The addition this year of pages designed specifically to help maximize search engine positioning for targeted keywords such as "oxidative stress", attracted over 600 of the December's visitors from the search results.

Your top ten web pages in order of visits are:

- |  |                                     |
|--|-------------------------------------|
| 1. Home page   | 6. Antioxidant Product Index        |
| 2. Assay Product Index   | 7. Contact Information              |
| 3. Oxidative Stress Article (primarily intended for search engine promotion) | 8. Enzyme Product Index             |
| 4. General Product Index   | 9. Antibody Product Index           |
| 5. Order Form  | 10. GSH-GSSG Product Specifications |

The Citations Database was viewed 103 times in the month by 61 visitors. This feature has experienced stable activity after dropping in attendance from a high of 97 visitors in May.

Interestingly, your third highest entry page into the site was the Peroxynitrite – 33113 Product page which was just removed. As expected, the promotion of the phrase "oxidative stress" as a keyword for search engines evidently attracted many non-researchers since it is shown as an entry page for 486 visits and an exit page for 450 visits, suggesting they did not proceed other pages. But if 36 visits continued into the site, the minimal expense involved in this promotion is likely worth the cost.

The OXISResearch catalog was downloaded 1105 times in December and product inserts were popular with 207 GSH-GSSG pieces gathered.

About 33% of visitors returned more than once suggesting those with genuine interest and those using OXIS products (including distributors).

### Visitors by Region:

North America	58% (of top 15)
Asia	15
Western Europe	14
Middle East	3.5
Northern Europe	2.2
Eastern Europe	2.0

### Visits by Country:

United States	62% (of top 20)
United Kingdom	5.1
Taiwan	4.2
Japan	2.7
India	2.5
Canada	2.4
Germany	2.4
Korea (South)	2.4
Sweden	2.0
Australia	1.9

### Conclusion:

OXISResearch.com and OXIS.com are generally well positioned to continue the current 6% growth per month rate in visits from current, and potential, clients from around the world.

### Recommendations:

1. Add the proposed Quick Product drop down list on Home page for direct access to individual products
2. Add general Search box to site
3. Add any new available content
4. Add language converter to web site pages in footer
5. Add "welcome" pages to web site in variety of languages and submit same to foreign search engines which will not post your site unless in their language
6. Add educational and training information to web site in support of distributors and/or researchers. (Can be password protected for Distributors only)

## Traffic Statistics for Year – 2004:

### 2004 General Statistics

The Visits graph displays the overall number of visits to your Web site. The General Statistics table provides an overview of the activity for your Web site during the specified time frame.

General Statistics - Report Range: 01/01/2004 00:00:00 - 12/31/2004 23:59:59		
<b>Page Views</b>	Page Views	247,226
	Average per Day	662
	Average per Unique Visitor	6
	Document Views	219,177
<b>Visits</b>	Visits	79,874
	Average per Day	214
	Average Visit Length	00:12:19
	Median Visit Length	00:00:09
	International Visits	53.20%
	Visits from United States	46.79%
<b>Visitors</b>	Unique Visitors	35,712
	Visitors Who Visited Once	27,583
	Visitors Who Visited More Than Once	8,129

General Statistics - Help Card	
<b>? Average Hits per Day</b>	- Number of successful hits divided by the total number of days in the log.
<b>Average Page Views per Day</b>	- Number of page views divided by the total number of days in the log.
<b>Average Page Views per Unique Visitor</b>	- Number of page views divided by the total number of unique visitors.
<b>Average Visits per Day</b>	- Number of visits divided by the total number of days in the log.
<b>Average Visit Length</b>	- Average of non-zero length visits in the log.

---

## General Statistics - Help Card

**Document Views** - Number of hits to pages that are considered documents--not dynamic pages or forms--as defined by the system administrator.

**International Visits** - Percentage of visitors defined as "international" in Domain Options.

**Home Page Hits** - Number of times your home page was visited.

**Median Visit Length** - Median of non-zero length visits in the log. Half the visit lengths are longer than the median, and half are shorter. This number is often closer to the "typical" visit length than the average visit length. Numbers that are wildly atypical can skew the average, but will not skew the median so much.

**Page** - Any document, dynamic page, or form. Documents are user-defined in Options, but typically include all static content, such as complete html pages. Dynamic pages are created with variables and do not exist anywhere in a static form. Forms are scripted pages which get information from a visitor and pass it back to the server.

**Page Views** - Hits to files designated as pages. Supporting graphics and other non-page files are not counted.

**Page Views: Document Views** - Hits to pages that are defined as documents. This entry excludes hits to dynamic pages and forms.

**Unique Visitors**- Individuals who visited your site during the report period. If someone visits more than once, they are counted only the first time they visit.

**Visits** - Number of times a visitor came to your site. If a visitor is idle longer than the idle-time limit, WebTrends assumes the visit was voluntarily terminated. If the visitor continues to browse your site after they reach the idle-time limit, a new visit is counted. The default idle-time limit is thirty minutes.

**Visits from Spiders** - Number of visits from any site classified as a spider.

**Visits from Your Country** - Percentage of visits from your country. The name of your country and the country code are shown. Your system administrator configures the selection for your country.

**Visitors Who Visited More Than Once** - Number of individual visitors who appear more than once in the log file. Individuals can be tracked by IP addresses, domain names, and cookies. Cookies provide the most accurate count.

**Visitors Who Visited Once** - Number of individual visitors who appear only once in the log file. Individuals can be tracked by IP addresses, domain names, and cookies. Cookies provide the most accurate count.

The General Statistics page provides an overview of your Web site's performance and visitor behavior and can help you determine which chapters will be most valuable to you.

Log records for the last second in the log file are not included in this analysis. There is no way to tell if information for that second is complete until the log records following it become available. The data for the last second will be included when the next analysis is run and additional data is available.

## Traffic Statistics for Month - December:

### **December General Statistics**

The Visits graph displays the overall number of visits to your Web site. The General Statistics table provides an overview of the activity for your Web site during the specified time frame.

<b>General Statistics - Report Range: 12/01/2004 00:00:00 - 01/01/2005 00:00:00</b>		
<b>Page Views</b>	Page Views	24,649
	Average per Day	770
	Average per Unique Visitor	4
	Document Views	20,646
<b>Visits</b>	Visits	8,752
	Average per Day	273
	Average Visit Length	00:13:07
	Median Visit Length	00:00:02
	International Visits	43.97%
	Visits from United States	56.02%
<b>Visitors</b>	Unique Visitors	4,972
	Visitors Who Visited Once	3,834
	Visitors Who Visited More Than Once	1,138

## Top Pages

This page identifies the most popular Web pages on your site, shows you how often they were viewed, and displays the average length of time the page was viewed.

## Visitors by Number of Visits

This page shows the distribution of visitors based on how many times each visitor visited your site.

Visitors by Number of Visits		
Number of Visits	Number of Visitors	% of Total Unique Visitors
1 visit	3834	77.11%
2 visits	599	12.04%
3 visits	229	4.60%
4 visits	101	2.03%
5 visits	52	1.04%
6 visits	32	0.64%
7 visits	31	0.62%
8 visits	11	0.22%
9 visits	13	0.26%
10 or more visits	70	1.40%

## Top Geographic Regions

This page identifies the top locations of the visitors to your site by geographic region.

Top Geographic Regions		
	Geographic Regions	Visits
1	North America	5,119
2	Asia	1,322
3	Western Europe	1,217
4	Middle East	311
5	Northern Europe	194
6	Eastern Europe	179
7	Australia	151
8	South America	127
9	Northern Africa	51
10	Region Not Found	26
11	Southern Africa	13
12	Central America	12
13	Caribbean Islands	12
14	Western Africa	9
15	Pacific Islands	9
<b>Total for the Geographic Regions above</b>		<b>8,752</b>

## Most Active Countries

This page identifies the countries with your most active visitors.

Most Active Countries		
	Countries	Visits
1	United States	4,903
2	United Kingdom	404
3	Taiwan	328
4	Japan	215
5	India	200
6	Canada	191
7	Germany	188
8	Korea (South)	188
9	Sweden	158

## Top-Level Domain Types

This section provides a breakdown by types of top-level domains (Commercial, Organization, Educational, etc.). This information can only be displayed if reverse DNS lookups have been performed, and the percentages refer to the total of hits for which the organization type can be determined (some IP addresses cannot be resolved to a domain, and therefore an organization type cannot be determined).

Top-Level Domain Types				
	Top-Level Domain Type	Hits	% of Total Hits	Visits ▼
1	Commercial	14,743	32.19%	2,140
2	Network	14,906	32.54%	1,252
3	Education	13,645	29.79%	838
4	Military	290	0.63%	73
5	Government	699	1.52%	40
6	Organization	1,490	3.25%	40
7	Arpanet	23	0.05%	4
<b>Total for Known Top-Level Domain Types</b>		<b>45,796</b>	<b>100.00%</b>	<b>4,387</b>

## Summary of Activity for Report Period

This page summarizes general server activity.

Summary of Activity for Report Period	
Average Number of Visits per Day on Weekdays	304
Average Number of Hits per Day on Weekdays	3,589
Average Number of Visits per Weekend	434
Average Number of Hits per Weekend	3,154
Most Active Day of the Week	Wed
Least Active Day of the Week	Sat
Most Active Date	December 08, 2004
Number of Hits on Most Active Date	5,431
Least Active Date	December 25, 2004
Number of Hits on Least Active Date	828
Most Active Hour of the Day	08:00-08:59
Least Active Hour of the Day	19:00-19:59

---

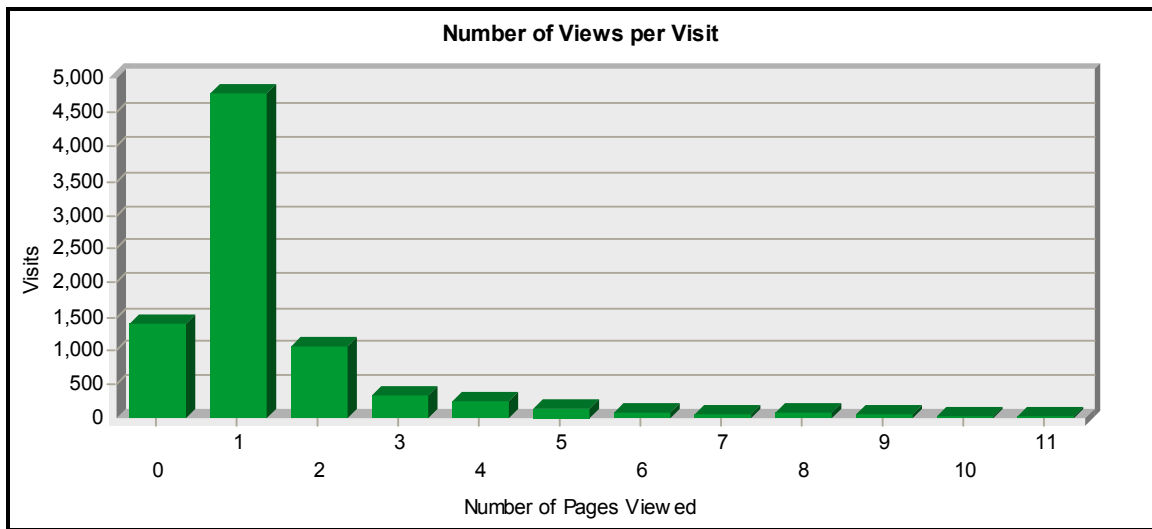

## Activity Level by Length of Visit

This page shows the number and percentages of visits and page views over selected visit lengths.

## Number of Views per Visit

This section shows you how many visitors viewed one page, how many viewed two pages, etc.

---

## Visitors by Time Increment

This page shows how many visitors viewed your Web site and how long they stayed. The information is split up into time increments based on the duration of the log file. Visitors are typically tracked using the cookie that's been defined or by their IP addresses.
